The image features a minimalist design with a light gray background. On the left side, there are two overlapping diagonal bands: a lighter gray one in the foreground and a darker gray one behind it. A large, horizontal orange band with a slight gradient and a wavy bottom edge stretches across the upper middle of the frame. TOUR OF LAGOS WATERWAYS

FOLLOW THE WATER.

LAGOS HAS ALWAYS BEEN CONNECTED TO WATER. ITS COAST, RIVERS, POND AND COASTLINE ARE PART OF THE CITY'S IDENTITY. SUPPORTING COMMUNITIES, LIVELIHOODS, HISTORY AND HERITAGE.

TOLW BRINGS THAT RELATIONSHIP TO LIFE THROUGH THE EXPERIENCE OF THE WATERWAYS – CONSIDERING HISTORY, RESOURCES, MARINE TOURISM, CULTURE AND HERITAGE.

...because sometimes, the best way to understand a city is to see it from another side.

DESTINATION 02

OMU LINK BRIDGE & PROPOSED- MARINE TOURISM VILLAGE

The Future of Waterfront

The address comes from that destination. They connect people, communities and possibilities.

The Omu Link Bridge represents a powerful expression of that connection – creating a physical link around the Omu waterfront, providing a new perspective on access, movement and interaction.

For TOLW, it is an opportunity to see the relationship between water, community and development from a different perspective.

BEYOND THE JOURNEY

Tour of Lagos Waterways is an experience of what already exists. But it can also become a platform for imagining what is possible.

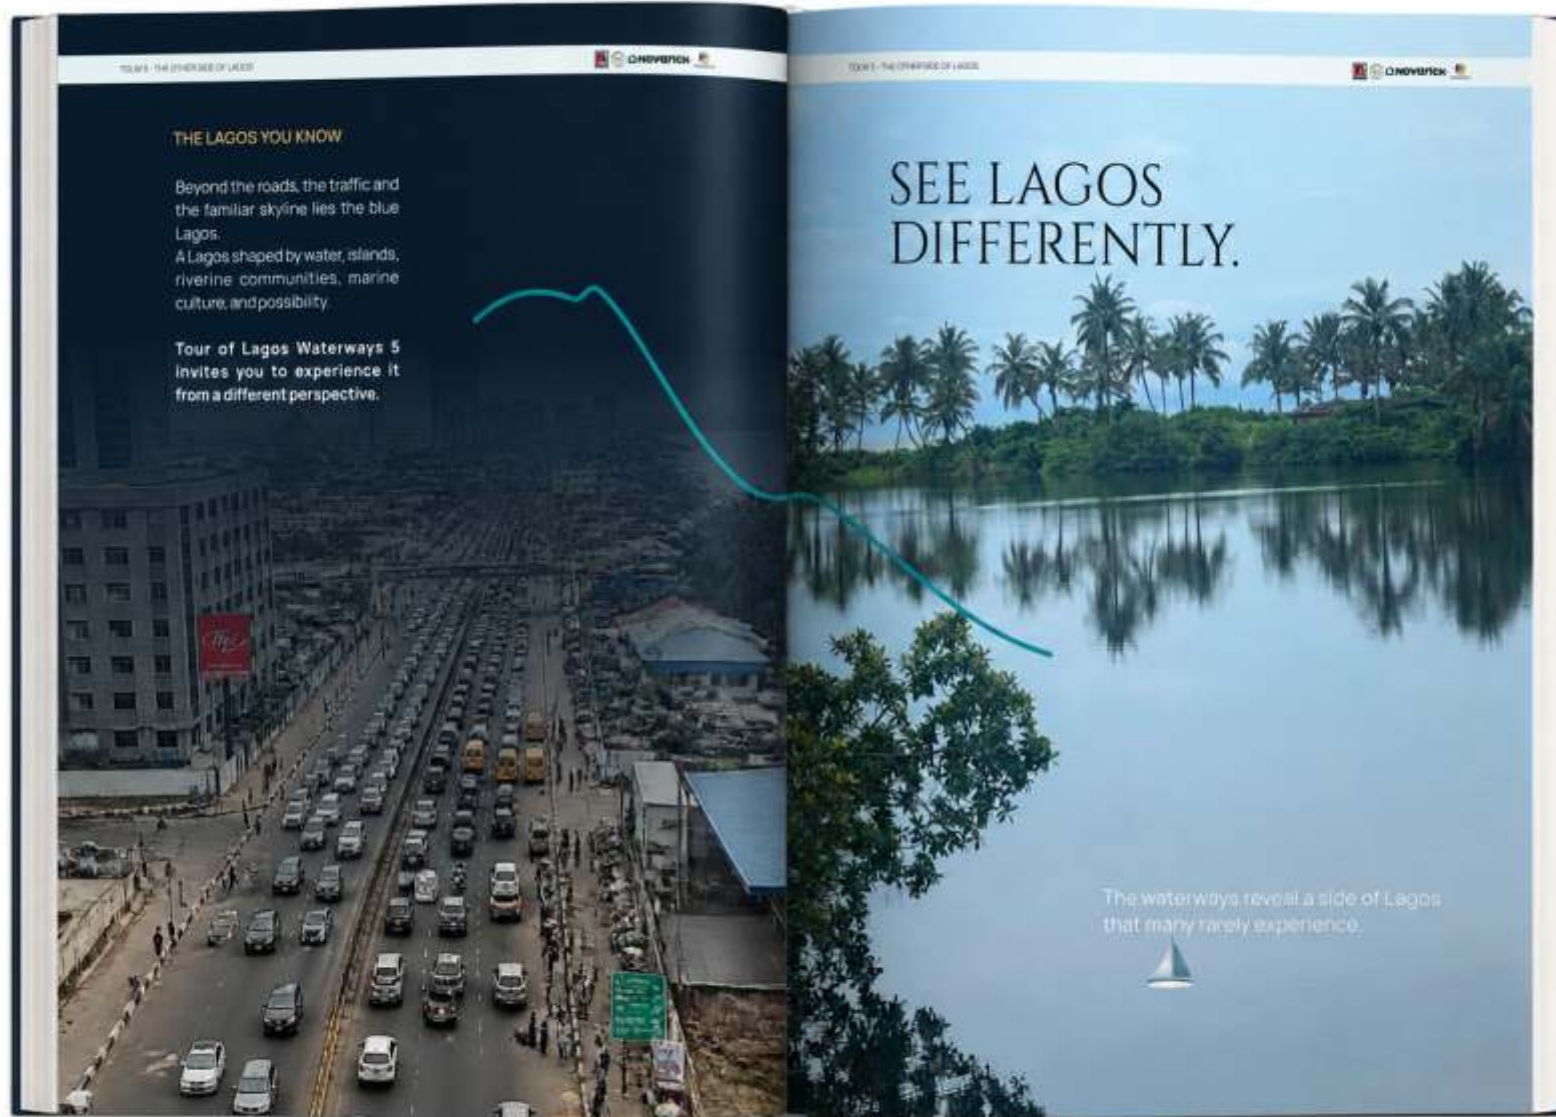

By bringing people onto the waterways, TOLW creates an opportunity to see Lagos differently – not only as a city connected by water, but as a city capable of building experiences, businesses and destinations around it.

There is the larger promise of marine tourism.

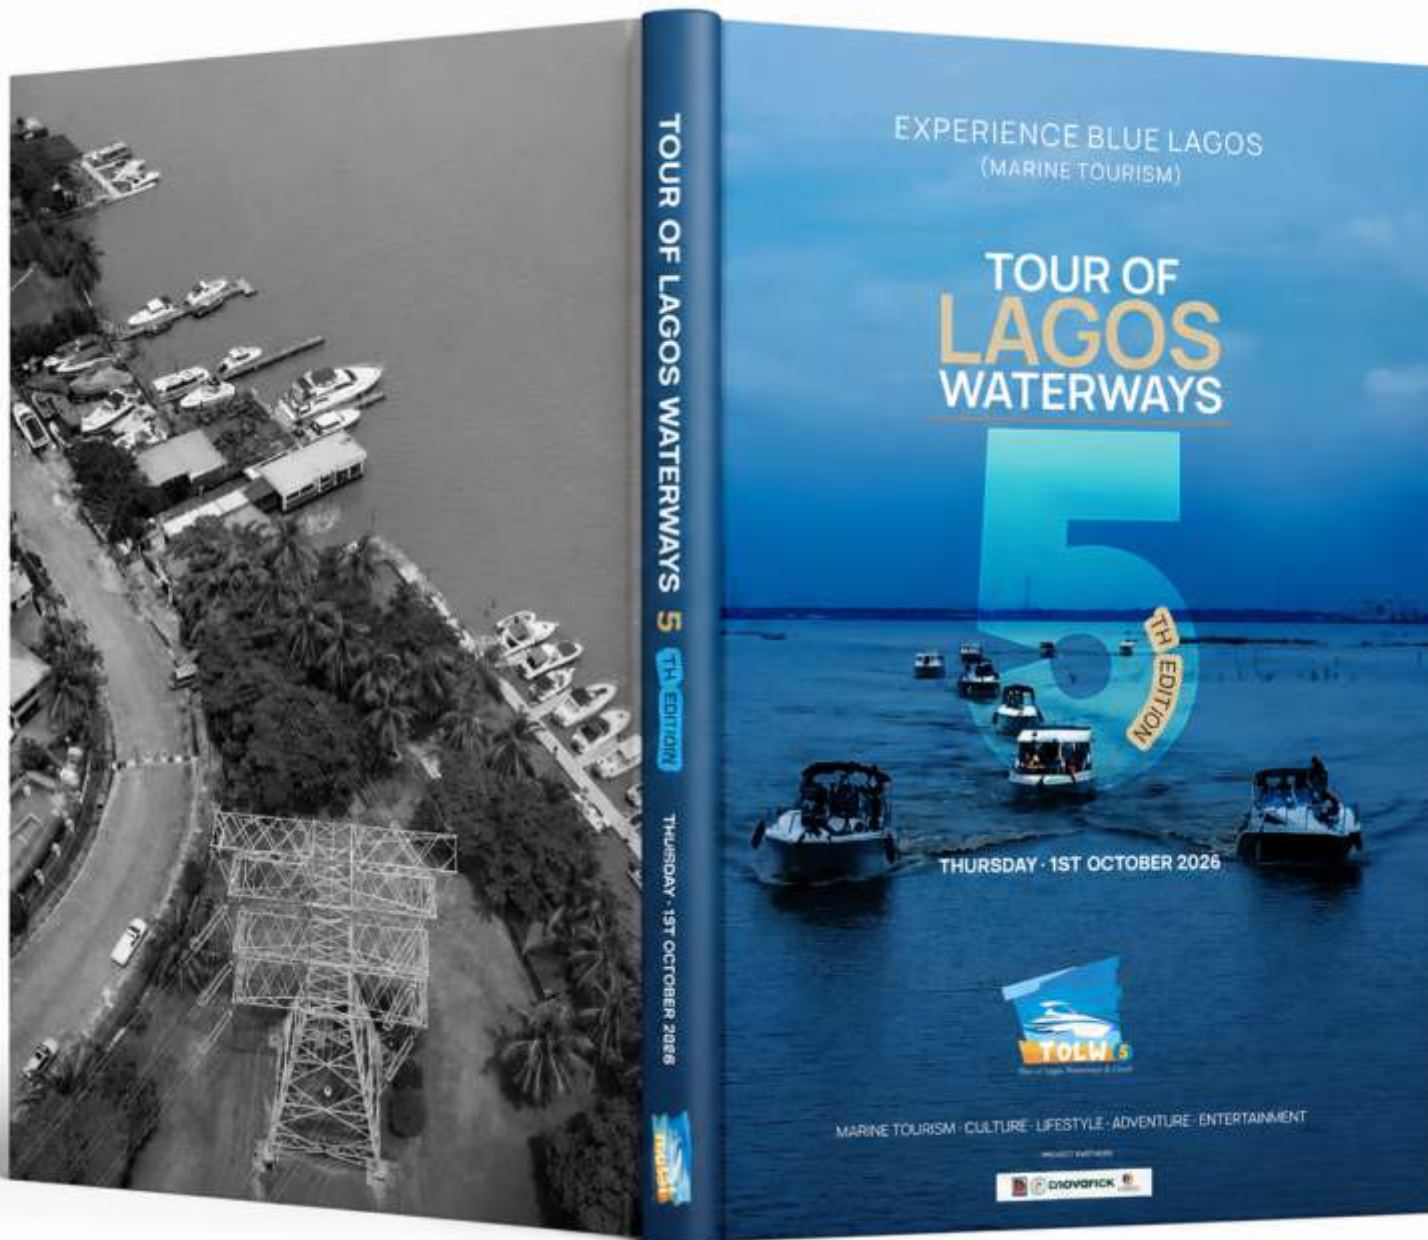

DISCOVER. CONNECT. CREATE.

The water is our ally. It's time to use it as an opportunity.
